PROJECTS

Personal Portfolio Website

Developed a personal portfolio website using NextJS and ReactJS, showcasing my skills, projects, and contact information.

E-commerce Platform

Built a fully functional E-commerce website using MERN Stack, with product listings, shopping cart functionality, and user authentication.

Weather App

Created a responsive weather application that provides real-time weather updates for any city using a public API.

Movie Recommendation App

Developed a movie recommendation app that suggests movies based on user preferences, with integrated trailers and reviews.

SUMMARY

Skilled Full Stack Developer with 2 years of experience in web application development. Proficient in both front-end and back-end technologies, database management, software testing methodologies, and CI/CD pipelines. Strong team collaborator with excellent problem-solving and communication skills.
